

Caught Up AI — AP Lang Teacher Interview Guide

June 8, 2026 | Points to cover

Discovery: workflow, pain, spend

- [] How she builds an opener / bell-ringer now; where the time goes
 - [] With a current-events piece, what she still builds herself (questions, device markup, key, alignment); what eats most time
 - [] Tools she pays for out of pocket; anything cancelled this year and why (factual error, pedagogical miss, unreliability)
-

The Opener + expert review (hand her the teacher copy first)

- [] First reaction; would she teach it tomorrow; what is wrong with it
 - [] Length and reading level right for AP Lang; register variety across days useful or noise
-

Walk the teacher copy with her — yes/no + a fix on each:

- Device labels correct and actually present; any mislabels (anaphora vs parallelism); anything obvious unmarked
 - MCQs: one defensibly-best answer; each distractor fails for a real reason; AP-valid in form
 - Answer-key reasoning holds up against a sharp student
 - Sample strong responses would actually earn the points
 - Common misconceptions are the real ones, not invented
 - AP alignment accurate (Q1/Q2/Q3; better for analysis, argument, or synthesis)
-

AI, authenticity, accuracy

- [] Would she have known it is AI; does it read machine-written anywhere, and where
 - [] Does AI authorship bother her / students / department / admin
 - [] Pedagogy: analyzing an AI's choices with no real author or occasion — still teaches the skill or undercuts it; better for argument/reading practice than rhetorical analysis *don't argue it; let her draw the line*
 - [] Tolerance for a single factual error (one and out, or is a correction fine)
-

Product fit

- [] Charged topics: how she handles them now; would a one-time neutral-vs-civic setting earn trust, or need per-piece control

-
- [] Optional support layer (glossary, FRQ sentence starters, vocab pre-list) — useful or unnecessary for AP
-

Pricing

- [] What it is worth per month; out of pocket or through the school *let her name a number first*
-

- [] Reaction to \$19.99/mo solo, \$190/yr *only after her own number*
-

- [] What would make her cancel after a month
-

The ask

- [] Fall pilot: real Openers in class ~4 weeks + honest feedback
-

- [] Blind-read panel of AP Lang teachers to settle whether the AI pieces pass
-

- [] Referrals: AP Lang teachers or coordinators whose read on tools she trusts
-
